

Project Proposal Revision Workshop

Week 4 - Revision Summary

1. How can you improve your group's presentation?
 - The voice projection of our presentation could have been better.
 - Slide numbers could have been added.
 - The data flow could have been elaborated more detailed.
 - Less text should be used in the slides.
 - We have to avoid words like “popular” when mentioning the reasons for choices.

2. What are the changes/improvements you need to do in your project's design?

(make sure to update your blog with the improved design)

 - Using RFID instead of Bar-Code.
 - Considering about the security requirements.

3. Make a list of things you need to learn about in order to complete your project:
 - Vue.js – Frontend design
 - Shortest path algorithms – For the line following robot
 - How to display data real time in the book database
 - How to build and control the robot
