Project Proposal Revision Workshop

CO 321, CO 322,CO 324,CO 325

1. How can you improve your group's presentation?

   The time for the presentation can be increased by increasing the time spend for solution.

   The attention of the audience can be get to us by speaking loudly.

   The presentation can be improved by using more details clearly.

2. What are the changes/improvements you need to do in your project's design?

   We have to change our previous project idea (Anti-Theft Security System) and our new Project idea is Automated Vehicle Parking System.

   Our product should be implemented to the both registered and unregistered users.

   Our microcontroller is changed from Arduino board to NodeMCU.

3. Make a list of things you need to learn about in order to complete your project?

   Familiarize with the hardware components
   - NodeMCU
   - RFID reader

   Familiarize with the software side

   - Data encryption
   - Payment gateway
   - Firebase push notification
   - React (For web application)
